... Bureau in

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Baumgardt to Speak.

The Child-study Circle of Norwood-street school will give an entertainment tonight at Henderson Hall. B. H. Baumgardt will speak and recite, including views of the ruins of San Francisco.

Patrons of Husbandry.

Patrons of Husbandry now in Southern California, or persons who have been connected with that order, have been requested to communicate with J. W. Webb, lecturer of the State Grange, box 431, Modesto, Cal.

"Veterans' Opportunity."

This will be the subject of an address to the veterans of the Soldiers' Home, in Memorial Hall, at 1:30 o'clock this afternoon, by Mrs. G. T. Steckney, president of the Los Angeles county W.C.T.U. It will be the regular meeting of the veterans' temperance union.

Gospel Temperance.

The subject of Francis Murphy's gospel temperance meeting on Sunday evening will be "Bread to the Hungry." Miss Grace James will sing. Miss Marion Boyd will render a violin solo and the congregational singing will be directed by Charles Lamb. Business men will make brief addresses.

Report on San Francisco.

The next meeting of the Southern California Chapter of the American Institute of Architects at Levy's Café Tuesday night promises to be of absorbing interest. The subject of the profession. The meeting will be made the occasion for the hearing of the general report by Francisco by members of the State Board of Architects.

Memorials and Suihies.

The Coroner's jury in the inquest held yesterday over the remains of Stefano Loggiamore, who was killed by a bull in his own corral, found that he had died of internal hemorrhage. The bull had trampled upon the aged man and broken a number of ribs, and thus caused an internal hemorrhage. Plain suicide was the verdict rendered in the case of G. F. Lang, known on the stage as E. Fairfield, who shot himself in his room Wednesday night.

"The Square Deal."

Rev. William F. Lusk, the ambitious young pastor of the Huntington Park Methodist Church, delivered a lecture in Blanchard Hall last night, for the benefit of his church. His subject was "The Square Deal." He argued that the principal should be applied to love-making, in the family, in business and in politics. He declared that it was a square deal and evidence of a good memory when the speaker returned to the church. He also mentioned George Alexander to the Superior's office. For this the speaker was applauded, and when he eulogized the "square deal" policy of President Roosevelt, there was a storm of assent.

Unfortunate Girl Rescued.

Rose Peterson, bright, attractive and 16 years of age, was rescued last night by Officer Vignes from a notorious lodging house on North Main street, and taken to the police station, where she was placed in the hands of the nation. The girl came from San Francisco, and is without friends or relatives in this city. For two weeks she has been working for a family for her bare subsistence, but on account of change of residence of this family, and they were thrown out of employment. After the girl had paid for her room in the North Main-street lodging house she possessed about 10 cents. She was very much frightened at her surroundings, and was very glad when the patrolman, who had seen the girl enter the place, went in and rescued her. She has the appearance of being in every way respectable. She is in need of assistance.

BREVITIES.

315 set of teeth reduced to \$10. 22 years in the Dr. George Stevens, 217 S. Main.

COLD FACTS.

1. Los Angeles is more than 400 miles away from the scene of the disturbance which has laid San Francisco in ruins, partly by earthquake shock, but chiefly by fire. Only a slight tremor was felt in Los Angeles.

2. In all the history of Southern California, extending back to the days of the Franciscan Fathers, about a century and a half, there has not been a serious earthquake in this region.

3. Los Angeles and the country around about, within a radius of one hundred miles, while it has experienced some slight "tremors," has never had, within the knowledge of man, an earthquake shock strong enough to do any damage worth mentioning; hardly enough, in point of fact, "to move a brick" (unless, indeed, the brick were just ready to be toppled over.)

4. In the entire history of California, (and that of the whole Pacific Coast) down to the day of the San Francisco catastrophe, less injury to property and less loss of life has been inflicted by earthquake than has often been caused by a single tornado in one of the Eastern States. And most of the damage in San Francisco was caused by fire, as noted above.

5. A disaster similar to that of San Francisco may never occur again in any part of the United States. It is as liable to occur in Boston, or New York, or Philadelphia, as on the Pacific Coast.

6. Far from being shaken or damaged by the San Francisco earthquake, Los Angeles was the first to send relief to the smitten city, sending carload after carload of supplies and thousands of dollars in money on the very day of the disaster.

(Readers of The Times wishing copies of the above statement to send East may obtain slips in any number at The Times office.)

TAKES PAGE IN "THE TIMES."

Santa Monica Chamber of Commerce Committee Places Order for Advertising.

SPECIAL CORRESPONDENCE OF THE TIMES. SANTA MONICA, May 4.—The Executive Committee of the Santa Monica Chamber of Commerce held a lively meeting at the Venice Country Club house last night. The subject under discussion was the best method of advertising the entire bay section. All agreed that neatly illustrated descriptive pamphlets are essential, but the argument was made that a good plan would be to catch the eye of the thousands of strangers who daily visit Los Angeles. These tourists come into the Southwest in search of homes, and while they are here they should be induced to pay a visit to this bay. With that object in view the order was placed for a full page advertisement in the Los Angeles Times. It was contended by some that action should be taken in an effort to overcome or at least forcefully contradict the false rumors running throughout the East to the effect that Los Angeles had been shaken down and the beach resorts had been tumbled into the sea. No definite action was taken relative to this phase of the advertising.

SPLIT IN MCCLURE'S.

New Magazine to Be Started Because Dispute Over Editorial Policies of the Old.

(BY DIRECT WIRE TO THE TIMES.) NEW YORK, May 4.—(Exclusive Dispatch.) It was reported in literary and publishing circles, yesterday that a split in the firm of McClure, Phillips & Co., publishers of McClure's Magazine, had occurred over editorial policies, and that the disaffected members, together with three of the best-known writers upon economic and social questions now under contract to the company, had determined to start a new magazine.

SPRING AND THIRD STS.

Neckwear Novelties

There's a charm about this new lot of neck fixings that few women can resist. Not-before-seen styles are here in Stocks, Collars, Chemisettes, Sets and Ties, that are needed to complete the modern costume.

Embroidered tailor-mades, or fancy lace and embroidery combinations, with pretty tab ends.

Chemisettes, of lawn decorated with Val. lace and embroidered; very Irish crochet and fine tucks; some very pretty styles at 25c and 50c.

Stocks in upwards of twenty different styles—and each one a novelty—at 25c each.

Notion Novelties

Another lot of pretty jewelry and bag novelties will make their initial bow today. Most artistic creations in their line we have ever seen.

Bracelets, Bead Chains, Fancy Buckles, Dog Collars, Necklaces, Combs, etc., are shown in all the new metal effects; also jet, jade and every other late idea.

Washable hand bags, made of allover embroidery or embroidered linen, are among the prime favorites of fashion. White leather bags, too, are here in many varieties, with new fashioned mountings, odd shapes and designs. The showing is the largest, the most carefully chosen we have ever owned. You must see it.

Summer Underwear

We sell the famous "Merode Underwear"—the underwear that's hand finished—every garment. It's knit to fit the form. Every style and weight and quality is here for your approval. If your personal comfort is considered you will investigate this.

Talks on Advertising

Does It Pay Us?

We would never have commenced advertising if there had been any doubt of the results. Does it pay to advertise? Last Sunday's Times is a pretty fair answer to that question.

Nine hundred and eighty inches of display advertising written and prepared by this office. Two new booklets started yesterday. Three new accounts begin on May 15th.

Advertising always pays unless the proposition itself or the advertising itself is wrong. It is a part of our service to create selling arguments and give consultation regarding the proposition to be advertised. We would not accept for advertising any enterprise that seemed to us unlikely to meet with success.

Let us talk with you about your advertising.

SATURDAY MORNING, MAY 5, 1906.

STEP LIVELY BY NEWHALL.

Hobos Skirt Town to Escape
New Calaboose.

Cement Lock-up a Harbinger
of Hard Times.

No More Will Prison Walls
Go Up in Smoke.

"Low bridge!"
"Stone pile!"
"Duck!"
"Pass it!"
"Cut it out!"
Important to "Omaha Kid," "Seattle Sam" and other hobo Newhall has a new jail, break-proof

NOPE, NO WRECK ONLY
NEWHALL SIGHTED, THAT'S ALL.

from the inside out; dangerous from the outside in.

It means death to the hobo camps alongside the railroad up north of Saugus, where the tomato-can kitchens and the bonfire make an oasis for the weary tourists with oil smoke in their lungs and the joys of springless trucks in their bones.

Supervisors Alexander, Wilson and Patterson got back yesterday from Newhall, where they went to inspect the calaboose. It is to be ready for occupancy in two weeks.

If the 'bobs have not already taken warning it will be occupied very shortly. Not quite as witherful as the old one, now falling into decay. This one is insect proof.

All the other jails in the unincorporated places throughout the county have leaked. In many of the smaller towns the county has to maintain battalions in which to incarcerate the wandering population that travels in box cars, on sleeper roofs and on the trucks.

DIDN'T MIND THESE.

Most of these jails are built of 2x4s or railroad ties stacked up like a blockhouse. Hobos don't mind being locked in them.

If they wanted to get out before the constable got ready to take them to the Los Angeles County Jail to await trial for vagrancy, they built a fire on the floor. Then the side of the jail would burn out and the tramps would walk out.

Or they climbed out through the cracks in the walls.

It got so that only about one-half the number of hobos arrested ever was tried. The constable got his dollar fee for making the arrest, maybe, but it worked a hardship on the township.

Constables got to be bloated capitalists, while justices had to pick fruit to make a living.

The worst thing about this new jail from a hobo standpoint is that it will be thoroughly sanitary. If Constable Pardee takes such a notion into his head, he can make every lodger take a bath with the facilities provided.

But that would be bad for the constable's business.

Tramps locked in the old jails hold even more reception for the inmates outside. Their unshackled friends come and poke things to eat in through the cracks in the walls.

ABANDONS HOPE, SURE.

This new lock-up is made of cement, with walls twelve inches thick. The three barred windows on one side are high from the ground and open into an alleyway that runs the length of the interior. On the opposite side of this alley are two cells, 12x12 feet in size. The barred outer door is at one end of the alley. A sink is at the other, in conspicuous view of all who enter there. If he who enters there abandons soap in his mind he quickly has the idea washed out.

There is a cement floor that must be scrubbed frequently by the inmates. Scrubbing day will be as great a terror to the hobos as wash day at home.

The outline of the building is Mission, with a fancy cornice and a place where a bell ought to be.

Already the word has gone along the hobo line. "Pass them 'bobs out of Newhall. The little jails at San Fernando and Burbank, of the older style of architecture, have fewer terrors.

Once they had twenty-six tramps in the ramshackle hut that now is seeing its last days at Newhall. Such days are never expected to come again. The new calaboose, however, can accommodate about a hundred in a squeeze.

THEN HE BURNS 'EM.

In the older places they pile the mattresses and blankets on the floor after the hobos are gone. Sometimes the constable finds the pile in another corner from that in which he left it. Bed clothing will be piled on shelves, and padlocked, in the new jail to await the next batch of prisoners.

Constable Pardee and Justice Powell at Newhall have not yet passed opin-

Steamship Lines From North
and South to Meet.

San Pedro is all a-bull over the very latest development in its shipping and navigation business. Nothing less than the establishment of two new lines of steamships which will meet at San Pedro, as they bring freight from any portion of Mexico, Central and South America to make of this vicinity the distributing point for a rapidly growing business, is the gist of the latest development.

The coming of the Pacific Navigation Company's steamers from the ports of Mexico to San Pedro, which information has been given in The Times this week, is but a portion of the general scheme now practically completed.

This Mexican line is to connect with a northern line of steamers, presumably the North Pacific Steamship Company now operating among other vessels, the Roanoke, and make it possible for freight from any portion of Mexico, Central and South America to reach San Pedro direct, and at the same time make immediate connections with a rapid line of steamers bound for Portland, Seattle and intermediate points.

The purchase yesterday of a wharf fronting of 550 feet for \$25,000 by an unknown steamship company was the origin of the information.

W. F. Crosby, an official of the North Pacific Company, together with other officials of the same line have been in Los Angeles for the last few days and are understood to have been in consultation with Señor Gonzales, a representative of the Pacific Coast Navigation Company.

BIG DEAL PENDING.

Señor Gonzales is in the city, for the purpose of interesting the merchants and business men of Los Angeles in a project to bring his line of vessels from Mexico to San Pedro. At the time Señor Gonzales came to the city it was not known that his plan to bring his boats here was but the first step in a much larger project.

It is learned that a proposition to exchange freight at San Pedro with a northern line of steamers has been made to Señor Gonzales. After the proposition it was found that the representative of the Mexican line did not have the authority to close a deal, but immediately communicated with his company by wire. An answer which will pave the way to an early consummation is expected within the next few days.

Mr. Crosby of the North Pacific Company refused to discuss the matter until that in a few days he would be able to talk it over.

The erection of big warehouses which will be used for the storage of goods to be shortly commenced. At the present time the Pacific Coast Navigation Company's boats only enter Mexican ports and do not go to Central America. A portion of the plans now being formulated is the immediate extension of the line to Central and South America.

THE PLUM IS RIPPED.

The business in the South American countries which is intended for the United States has reached enormous proportions. A great deal of it is carried across the South American continent and shipped by the steamship lines of the Atlantic to North America. Another big portion has been sent by way of San Francisco and Seattle to the United States. Practically none of it has reached San Pedro.

The fact that three transcontinental railroads touch San Pedro and that the harbor is now perfectly safe at all times for practically any vessel has been one reason for beginning the present movement to make it the one big distributing point for both northern and southern freight.

Seattle has been active during the last year to capture this plum of heavy freight from the southern countries, but has failed.

Señor Gonzales and Col. J. B. Lankershim have appeared before the Chamber of Commerce asking its moral support in an effort to interest the merchants of the city in the new Mexican line.

BUSINESS WAITING.

The company from Mexico desired to have a quantity of business "in sight" before it sent its boats into San Pedro. While this was quickly forthcoming, the need was overcome by the action of the northern line, which is understood as having made a direct offer to the Mexican company to deliver to it so many tons of freight at San Pedro as soon as one of its boats could sail into the harbor.

This rapidity in business matters was not anticipated by the Mexican company, and the deal is now being held up awaiting an answer to Señor Gonzales's telegrams.

An American company has secured all of its rights to "swap" freight with the Mexican line at San Pedro, and a certain routine business only remains to be done by the Mexican concerns.

Extensive properties are owned by the North Pacific Company in Mexico and they have been assured of a vast freight business in Mexico, Central and South America if they can get their ships, or secure direct connection with ships, which touch at certain ports.

The steamers now plying between San Pedro and the north will not be sufficient to care for the big business anticipated. The purchase of a number of other vessels now running independently, or new ones, will be made shortly after the consummation of the agreement between the American and Mexican companies.

CONFLICTING STORIES.

The reticency of all parties concerned in the matter has given rise to conflicting reports concerning it. It has been stated that the Pacific Coast Steamship Company was interested in the matter, but that has been denied. Still other reports have it that the Mexican line desires but a temporary landing for its steamers, which are soon to arrive here, and that they will ultimately go farther north.

Señor Gonzales strongly avers that his steamers will land in San Pedro as soon as they can possibly be freighted and reach here, and that the line will not go farther north.

The presence in the city of W. F. Crosby and other officials of the North Pacific Company and the consultations with Señor Gonzales is taken as an assurance that the next month will see the establishment of two new lines of steamers, one from the north and one from the south, in San Pedro.

CITY AND COUNTRY.

On All News Stands, 5 CENTS

PICKED A BLIND MAN.

Runaway Automobile Ran Up on Side-
walk and Knocked Out "Blind
Johnny" in One Round.

Elmer Gibson lost control of a big auto truck he was trying to turn at Third and Main streets yesterday afternoon and the machine ran up on the sidewalk and knocked a blind man down. Gibson was arrested and charged with running an auto which bore no number. The machine is the property of the White Garage, and was being tried out by the Auto Dispatch people, and no number was displayed as required by law.

The blind man was standing on the corner when the big machine ran into him and knocked him down. He was not hurt badly and as soon as he was helped to his feet he left the spot and his name was not secured but witnesses say it was "Blind Johnny" who was struck. Gibson was released on \$25 bail.

BURNING ISSUE IS INCINERATOR.

HOT DISCUSSION OF COLD DEAL
SPRUNG ON CITY.

Garbage Plant Licks Up Cash and
Live Things, Including Mules, But
Balks at Waste Matter—Officials
Propose to Lease it to Some One
Who Would Treat It Kindly.

The Board of Public Works has a nice new garbage incinerator for lease at a reasonable figure. It guarantees it to have an accommodating disposition and to be a willing worker.

For three months the board has been utilizing it as an experiment station to work out raw civil-service material, and as such it has proved a red-hot success; the only drawback appears to be that it costs about as much to operate it as to own a steam yacht.

During the last fortnight several prospective lessees have looked the plant over, but all have gone away without making a contract.

From some source the rumor has become current that the incinerator is situated in a healthy locality. A number of the horses used in drawing refuse up to the top of the furnaces have gone off their feed; in fact, three deaths of live stock have been reported within the last ten days. Two of these were mules.

And the civil-service men who drive the teams have reached the conclusion that a climate of this kind is a good one to avoid.

But the only real indiscretion committed by the big fifth eater was when it reached out its flaming tongue and licked up an innocent bystander. It repented in clinkers and ashes and hasn't even so much as melted the solder off a tin can since.

Yesterday S. M. Woodbridge made to the board a proposal to take away the clinkers, cans and ashes for the privilege of making use of the waste products. But he didn't want to have anything to do with feeding the brute. The board offered him free the refuse delivered at the dump, and the incinerator to burn what he didn't want of it, but he declined.

Woodbridge has been making some experiments screening the dump. He has watched the incinerator work, and he is free to confess that he doesn't want any of that game.

Mr. Woodbridge has even gone to the extent of suggesting to give to the city the proceeds from the sale of iron from the refuse. In making this offer he was careful to stipulate that it should not include silver or gold, and told the board that he worked over the ashes of the Coronado Hotel and that he got more than \$500 in gold.

The board has been casting about for means to get rid of this very refuse that Woodbridge will take free. Since the incinerator has been running it has cast out more than forty carloads of undigested material. This has been scattered about over the incinerator site and the buildings are hemmed in by four feet of rubbish.

When Woodbridge made his offer they did not stop to look a gift horse in the mouth but promptly sent a request to the City Attorney for a contract conferring on Woodbridge the refuse for a period of six months.

But the disposal of animal and vegetable garbage continues to be a burning issue.

McGuire & McGuire supply the horses and wagons for delivering waste into the mouth of the big fifth eater, the civil service furnish the drivers. So far the combination has failed to connect.

Barbecued horse and roast mule steak have become almost a daily diet down on Santa Fe avenue. In order to dump the garbage it is necessary to haul the wagons to the top up an incline directly over the furnace. Every few hours the driver, team and waste get mixed; then something happens.

The contractors owning the teams claim that the trouble lies with the drivers supplied by the civil service. The board of commissioners of public works put up a defense that the horses and mules are too skittish for such service.

One afternoon last week a horse balked right on top of the furnace. His side partner, a Calabasso mule, eyed him for a moment with deep disgust, and then let loose and kicked him through the cover and into the furnace. But the harness caught and pulled the mule down on its side on the hot door. The result was a \$400 outfit chucked up against some one, just who the courts may be called on to determine.

Even the board admits that the drivers supplied by the civil service are slightly the worse for wear. "Some of the men sent down by the civil service are so old and infirm that they can't climb up the side of a garbage wagon," said a commissioner yesterday.

That crematory is a pretty risky place to send a man to break his neck, he added. "If he doesn't understand how to handle a team when he gets up on top of the furnace he isn't likely to come back and report his failure."

"Each team and driver passes over the furnace. The lids are hot and it is a poor place to experiment."

Civil service men themselves are beginning to shun the incinerator as they would a pestilence. The tales of halfbreath escapes reported by some who have come back are not highly reassuring. They say it is like sending a man out in a light boat on a rough sea to test whether he is a sailor. If he comes back he has made good; if he doesn't—well, he doesn't.

A book-keeper in the street department is preparing a report of the cost of operating the incinerator for April.

THE BURBANK JAIL IS NOW WELL PATRONIZED.

Newhall's new break-proof cement jail, and what it means to the broke-bank tourists. The bastille was inspected yesterday by the Supervisors.

from the inside out; dangerous from the outside in. It means death to the hobo camps alongside the railroad up north of Saugus, where the tomato-can kitchens and the bonfire make an oasis for the weary tourists with oil smoke in their lungs and the joys of springless trucks in their bones.

Supervisors Alexander, Wilson and Patterson got back yesterday from Newhall, where they went to inspect the calaboose. It is to be ready for occupancy in two weeks.

If the 'bobs have not already taken warning it will be occupied very shortly. Not quite as witherful as the old one, now falling into decay. This one is insect proof.

All the other jails in the unincorporated places throughout the county have leaked. In many of the smaller towns the county has to maintain battalions in which to incarcerate the wandering population that travels in box cars, on sleeper roofs and on the trucks.

DIDN'T MIND THESE.

Most of these jails are built of 2x4s or railroad ties stacked up like a blockhouse. Hobos don't mind being locked in them.

If they wanted to get out before the constable got ready to take them to the Los Angeles County Jail to await trial for vagrancy, they built a fire on the floor. Then the side of the jail would burn out and the tramps would walk out.

Or they climbed out through the cracks in the walls.

It got so that only about one-half the number of hobos arrested ever was tried. The constable got his dollar fee for making the arrest, maybe, but it worked a hardship on the township.

Constables got to be bloated capitalists, while justices had to pick fruit to make a living.

The worst thing about this new jail from a hobo standpoint is that it will be thoroughly sanitary. If Constable Pardee takes such a notion into his head, he can make every lodger take a bath with the facilities provided.

But that would be bad for the constable's business.

Tramps locked in the old jails hold even more reception for the inmates outside. Their unshackled friends come and poke things to eat in through the cracks in the walls.

ABANDONS HOPE, SURE.

This new lock-up is made of cement, with walls twelve inches thick. The three barred windows on one side are high from the ground and open into an alleyway that runs the length of the interior. On the opposite side of this alley are two cells, 12x12 feet in size. The barred outer door is at one end of the alley. A sink is at the other, in conspicuous view of all who enter there. If he who enters there abandons soap in his mind he quickly has the idea washed out.

There is a cement floor that must be scrubbed frequently by the inmates. Scrubbing day will be as great a terror to the hobos as wash day at home.

The outline of the building is Mission, with a fancy cornice and a place where a bell ought to be.

Already the word has gone along the hobo line. "Pass them 'bobs out of Newhall. The little jails at San Fernando and Burbank, of the older style of architecture, have fewer terrors.

Once they had twenty-six tramps in the ramshackle hut that now is seeing its last days at Newhall. Such days are never expected to come again. The new calaboose, however, can accommodate about a hundred in a squeeze.

THEN HE BURNS 'EM.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

Salary demands from a number of departments faced badly yesterday at the hands of the Board of Public Works. The commissioners are determined that all contractors and employees shall give a full day's work for a day's pay.

East Fifth-street property owners are protesting against the transfer of so many saloon licenses to that thoroughfare; they say it is being converted into a "saloon row."

The Municipal League has asked the City Attorney to prepare an ordinance regulating a number of matters affecting the liquor traffic now controlled by rules of the Police Commission.

Decades Teomercano, a native of Persia, put on his war paint yesterday and called on the District Attorney. He wanted a complaint against two countrymen who, he alleged, burglarized his premises at Venice.

Samuel Basovitch was yesterday summoned on an insanity charge, but he appeared sane when he shot himself twice in the arm. He was rather to have an excuse for not working, then from an unhealthy mental condition. Suits have been brought by J. H. Spier against the First National Bank to force delivery of forty shares of brickyard stock.

PUBLIC WORKS BOARD ACTIVE.

DEMAND FULL DAY'S WORK FOR DAY'S PAY.

Employees Who Take Saturday Afternoon Off Will Also Find It "Off" Their Pay Checks—Bumpers Ahead for Street Sweeping Contractor. Garbage Collection is Improved.

Commissioners of the Board of Public Works have served a two-month apprenticeship at the City Hall. Now they have started to do some real investigating of the departments over which they have supervision.

And the way of the little place men is laid in the land. Yesterday afternoon the board inspected department demands. For honorable precedents they showed not the slightest reverence. One of the first order sets on the part of the board was to send to the City Attorney a communication asking whether day men are entitled to draw full pay for half days and holidays.

This question strikes at the whole "system" in the department of engineering. Under the City Engineer is a host of outside men who draw their pay by the day instead of by the month.

All are high-salaried men, some receive as much as \$5 a day. They prefer to work as day men for the reason that as such they can draw pay overtime. An employee taking the month goes no extra time, but day men sometimes work as much as forty days in one month.

All these day men came out at noon Saturday, and draw pay for the whole day. President Anderson noted this in the demands. He mentioned the matter to the City Engineer, who said he would pay for half days. If the law is the same here it may mean a saving of several hundred dollars a month in the engineering and repair departments.

But the result will probably be that the City Engineer will ask the board to amend present ordinances, placing all day men on monthly schedules.

Commissioner Edwards asked for further information about the sprinkling contract for April. The city hires under contract a number of wagons. Mr. Edwards noted that during a part of the month the demand called for 112 teams.

Street Inspector Hanley was asked to come in and "enlighten" the board. The demand bears his approval, attached with a rubber stamp. Mr. Hanley said the demand must be the result of a misunderstanding of his orders. He said the contract calls for "112 teams more or less."

"They take teams off and put them under my instruction," he said. The greatest number of teams I ordered at one time was 102; they must have misunderstood the order to be 112."

As the Street Department is already in arrears the board decided to postpone the order at subject for further investigation.

Inspector Hanley, however, is working to enter harmony with the board. The commissioners have watched his work carefully and they are convinced that he is giving an economical administration. So far this year the expense of the department has not been as great as either year under his predecessor, and there are a great many more streets to care for.

Street Sweeping Contractor Howard did not escape censure. The board discovered that Howard sends his hand sweepers on the street two hours earlier in the evening than his contract specifies. The contract hour is 8 o'clock in the evening; the hand men have been going to work at 7 o'clock. The board is far from satisfied with the condition of some of the streets that Howard professes to sweep.

A recommendation for a cancellation of contract is considered not unlikely. But the bill for garbage collection in April was the blow that almost put the board out of business. Garbage complaints for the month were ten times greater than those arising from any other item of dissatisfaction, and the cost for collection alone was more than \$4000.

In the malodorous days before the city owned its incinerator, Charles Alexander collected and burned garbage under a contract for \$1750 a month. More properly perhaps, he contracted to do so. But the records show that more garbage is burned at the new incinerator in one day than Alexander's crematory at times consumed in thirty.

The board kept thirty-five garbage wagons going all month. The complaints about non-collection have dwindled away, but so has the surplus in the city treasury.

The situation is so serious that the Auditor is four days late with his monthly report.

SALOON ROW?

From East Fifth street comes a discordant wall that the liquor men and the police board have combined to convert that thoroughfare into "saloon row."

Under the last administration a rule was adopted that no more saloons should be located on Fifth street, between Main and Arcade depot. Property owners protested, and a general demand was made that this street, leading direct from the Arcade station to the business and hotel center of the city, be kept as free as possible of saloons.

LEAGUE HAS "VIEWS."

TRAFFIC IN LICENSES.

The Municipal League wants to take a hand at regulating the traffic in saloon licenses. The league has discovered that licenses are bringing \$7000 each in the open market, with irrigation restrictions. It proposes to break up this traffic by taking some of the power away from the police board, and conferring it on the Council.

Yesterday the Executive Committee of the league asked the City Attorney to draw for them an ordinance embodying the following provisions:

We would suggest that the matter of the regulation of frontage to admit a saloon be located in a saloon block by ordinance instead of by rule of the police commission, the former having more stability and permanency than the latter.

Instead of making the area from which licenses are sold a saloon block, we would suggest that the area be a saloon block of not less than 100 feet in width, and that the number of licenses be limited to one for each 100 feet of frontage.

We suggest that the area from which licenses are sold be a saloon block of not less than 100 feet in width, and that the number of licenses be limited to one for each 100 feet of frontage.

At the beginning of April last Stephen Spier, a native of Persia, came to the City Hall, and delivered a check for \$3000 to the bank, and was given a receipt for the same.

FAMILY DISAPPEARS.

Police Asked to Locate Wife and Three Children of Rivas, But There is No Clue.

Emerjildo Rivas sought the aid of the police yesterday in locating his wife and three small children, who disappeared from his home, corner New High and Ord streets, Thursday afternoon. Rivas had been at work as usual on that day and upon returning home was startled to find the place deserted.

He searched all night for his wife, going to the homes of all of her relatives and friends he knew of, but found absolutely no trace of the woman and the three children. Mrs. Rivas is a rather small woman, 23 years of age and was dressed in dark clothes with a straw hat when she was seen leaving the place by neighbors.

The oldest of the children, Luis is 6 years old, then comes Trinidad, aged 2 years, and the baby, Quintin, aged eleven months. The father and husband is nearly prostrated with grief and declares he knows of no reason why his wife should leave him. He refuses to believe that she has eloped with another man and fears a worst case scenario.

The police are endeavoring to locate the missing family but have not been able as yet to discover any clue to their whereabouts.

FIGHTS FOR LIFE.

Desperate Woman Saves Her Baby From Harm When She is Attacked by Her Lover.

With her small infant hugged to her breast to protect it from a ruffian's attack, Nicolasa Saragosa, an Italian woman, living on Utah street, near Kearney, was obliged to fight for her life and that of her babe. The police arrived in time to rescue her only after a deadly weapon had been used.

The screams of the woman had aroused the entire neighborhood, and the street was full of Italians when the patrol arrived. Some of them were crying "murder" at the top of their lungs.

When the police entered the room they found the woman seated, her head and neck streaming with blood, which flowed down over the infant in her arms, clothing the babe's clothing. A heavy iron safe stood in a pool of blood on the floor, and the man Saragosa was crouching in the far corner of the room.

The woman was arrested and brought to the station. Negrete was locked up on a charge of suspicion, pending a charge of assault with a deadly weapon. The woman's head was sewed up in the Receiving Hospital.

FENDER SAVES MAN.

Wagon Struck by Interurban Car and Two Injured, One Carried Nearly Half a Block.

Jeremiah Grant, ranchman, and Thomas Summers, real estate agent, were driving in a buggy together last night, near Third and Los Angeles streets when an Interurban car struck the vehicle as it crossed the tracks.

The men were thrown from the wagon, and Summers was carried nearly half a block on the fender of the car. The wagon was demolished. Summers and Grant were taken to the Receiving Hospital in the automobile of the Merchants Fire Dispatch. Grant was severely cut about the head, and both men suffered serious bruises. The fender saved Summers.

TRIED TO DIE.

Mae Davenport, known as the common-law wife of Tom Savage of the Eighth Ward, and keeper of a notorious dive, attempted to kill herself yesterday by taking fifty grains of morphine. At the California Receiving Hospital it is said that she may live. No reason is known for her act other than that which influences women of the underworld to such desperate acts. It is hinted that it is because she has quarreled with Savage.

HOTEL DE MONTE.

Damage from the earthquake is merely nominal, and no interruption of business. All engagements fully met. The Coast Line is running through car. Office 22 S. Spring.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS. ON GUARD. Yesterday the injunction proceeding of the Southern Pacific against the Huemul and Malibu and Port Los Angeles Railway came up before Judge Monroe, on a motion of the defendant to restrain the plaintiff from jumping in and getting busy on the 100-foot strip in dispute, along the shore from Santa Monica toward the Malibu ranch. The defendant is tied up on the plaintiff's motion to know that the plaintiff would not seize the opportunity to begin work on disputed territory. A court order was not made, but the attorneys are anticipated that nothing should be done pending an adjudication of the case.

STUDY METAPHYSICS. The Metaphysical Club of Los Angeles has incorporated without capital stock, and with the following directors: James Henderson, D. J. Whitely, W. J. Anderson, Mary E. Davis and Fannie C. Jackson, all of Los Angeles.

SENT TO PATTON. Frank Belembe was committed to the asylum at Patton by Judge Gibbs yesterday. The patient has been in the hospital for about five years, and has been much worse whenever he tried to give up drinking. He wanted to abandon the habit and took all kinds of medicine, but without avail. A few weeks ago he began to have quonians and made an attack upon his mother, Eli Moran, last year of age, was committed. He is a native of Canada and has hallucinations.

IN POLICE COURT. LIGHT FINE FOR DAVIS. John Davis was convicted yesterday in the Police Court of assault on Ram Eton. Both are negroes, and Davis is the janitor of the Merchants' Trust building, while Eton formerly held that position.

Thursday evening Eton went to the building and was ordered to leave by Davis. The latter having been instructed to drive Eton away if he appeared. Eton refused to go, and after hot words, drew a knife on Davis. In an instant Davis seized a large chair, which happened to be handy, and cut Eton several times on the face and hands with the weapon. Davis was arrested, and Eton went to the Emergency Hospital, where his wounds were dressed. Justice Austin in sentencing Davis, said Eton had been the aggressor, and he, therefore, would make the fine light, and so assessed the janitor \$40.

W. W. Tucker wished to plead guilty to a petty larceny charge yesterday, so that he could begin serving his time immediately, and not have to stay in jail until the Governor stopped proclaiming legal holidays before his trial.

The Pianola Piano

Unlocks the treasure house of the great compositions and makes it possible for any and everyone to play, enjoy, appreciate music. The old songs, the old hymns, the college glee and the rag-time burrah are all to be had for the Pianola, and in addition

THE MASTERPIECES

Beethoven, Wagner, Chopin, Schumann. Their great works can all be had and can all be played in a faultless manner upon this piano, which has caused the world to admit its superiority over anything else of its kind. If you will visit our establishment we will teach you to play anything your taste dictates, and we will do it in a very few minutes, for everyone can play with this instrument. STECK, WHELOCK, STUYVESANT are the Only Piano to Be Had With the Metrosyle Pianola.

OUR PAYMENT PLAN

Will help you to own one if you like, and we will take your old piano as part payment if you wish. WE ARE SOLE AGENTS.

WHO Made Your Shoes?

Did you ever think who makes the shoes you wear? It really makes a big difference to you.

The advancing prices on shoe materials offer a great temptation to the makers to cut down the quality a little—in other words, to take the cost out of the wear and the wear.

In a Recent Statement About This, SELZ, of Chicago, Said:

"We will never consent to degrade SELZ quality in response to an outcry against advanced prices. We may sacrifice our profits, if necessary, but not our quality."

WE SELL SELZ SHOES MADE ON THAT PRINCIPLE. THEY WON'T COST ANY MORE THAN THEY HAVE! BUT YOU CAN BE SURE THEY'RE GOOD.

AFTER MORLEY'S BASEBALL CLUB.
LUCAS LEADS MOVEMENT IN THE NORTHWEST.

Five Cities Represented in Preliminary at Seattle—Phil Gillis, Butte Capitalist, That Butte's Sponsor—Morley Making Medicine With Agnew for Bell Circuit.

(BY THE ASSOCIATED PRESS—P.M.)
SEATTLE (Wash.) May 4.—The initial step toward the establishment of a northwest baseball league was taken at a meeting here last night. President W. H. Lucas of the Northwest League, Jim Agnew of Seattle, A. J. Butte, Mont. Robert Brown of Gray's Harbor and George Schroeder of Tacoma were present.

Owing to technicalities over rights of the Coast and Northwest leagues no definite action was taken, but with these cleared away the crystallization of the elements of the new league will be prompt.

Seattle and Portland will be taken into the new association of clubs following arrangements to be made with the national association which will obviate a clash with the baseball league. Jim Agnew is endeavoring to frame up a circuit on the advice of James Morley of Los Angeles.

The National Association is expected to meet today and pass upon the matter of the new league, and if the Northwest League is accepted, the Seattle club will go in.

YACHTS GETTING READY.
First Summer Contest of South Coast Club Will Be Held Sunday Preceding Fiesta.

The boats of the South Coast Yacht Club are fast being put into shape for business, and the club has formally decided that the first race of the season will take place Sunday, May 20, as the opener for Fiesta week. The course and the conditions of the race will be arranged the latter part of next week, but it will probably be off Long Beach.

The present clubhouse will be formally opened next Saturday night with a smoker and general jollification and at that time that work on the new clubhouse has been commenced, for workmen will begin next week with the expectation of having the building ready by August 1.

COLLEGE BASEBALL.
Occidental and U.S.C. Will Meet This Afternoon at Occidental Grounds in Intercollegiate Game.

The U.S.C. ball team will play its first game this afternoon at the Occidental grounds, and friendship will cease when the boys meet, as the game is for "blood." The Pomona team, which has played games with both Occidental and U.S.C., thinks that Occidental will win, but U.S.C. has doubts about this rumor.

The line-up will be as follows:

Occidental. U.S.C.
Pitcher White-Pierce
Catcher Shute-Burck
First base Derby
Second base Rowland
Third base Ernest
Shortstop Blawie (Capt.)
Left field Lennox
Center field Comstock
Right field Peck

LEAGUE MEETING NEXT WEEK.
Pacific Coast Directors Will Assemble in Oakland to Discuss Future of Baseball League.

Manager Morley of the Los Angeles baseball team received a dispatch yesterday from President of the Pacific Coast League stating that a special meeting of the league directors would be held next week to consider the future of the league. This meeting will be held in Oakland, which is now the league headquarters, and is now answering the telegram, Morley urged that the meeting be held as soon as possible, in order that the directors and club managers might have just what they need in a position to state just what the eastern leagues are prepared to do for the Pacific Coast league, in the way of financial assistance.

MORE BRONCO "BUSTING."
O. L. Grimsley, who holds championship as a bronco buster and rough rider, will open a rough riding show at Fiesta Park today and tomorrow afternoon. Grimsley has competed in some of the best exhibitions in America, and has won honors in South America, where he captured the championship of Argentine Republic. His riding in the Denver championship contest two years ago was of the sensational order, and he came out with colors flying. For the exhibition here he has gathered together fifteen of the best bucking horses that the range produces. Between rides, Col. Case and his wife, Irene, will give exhibitions at crack rifle shooting.

San Francisco Defeats Seattle.
SEATTLE, May 4.—By bunching hits and making the most of Seattle's misplays, San Francisco won her third consecutive victory from Seattle yesterday. In the latter part of the game, Seattle's pitcher Hitt hard, but fell down on her hands and knees, scoring Seattle, 2; hits, 7; errors, 4. Batteries—Vickers and Blankenship; Hitt and Wilson.

BENEFIT GAME.
The Elks team and the Knights of Columbus club will play a benefit game of ball at Chutes Park on Sunday afternoon and all the proceeds will go to the fund for the San Francisco fire sufferers. John Brink will umpire and among the star players will be Charley Reddy on third base for the Knights and Joe Harris as pitcher for the Elks.

GOOD FOR PORTLAND.
Manager McCredie of the Portland team expects to have two old Los Angeles club players with him next week in Fred Raymer at second base and Bud Smith at third base. Jud having finally consented to typically Portland, according to McCredie. "With two such good ones in the infield the Portland team will be a much tougher proposition than it is already. It is said that the Seattle and Fresno teams are also to strengthen if the league continues in business.

MAY SUTTON PICKS RACKET.
May Sutton, the lady tennis champion of the world, appeared at the Dyer-Cline sporting goods house yesterday and out of seven racketeers picked one that she will take to England to defend her title in June. It was made up in typically prepared tennis skin case and this was put

COUNTY TRACK MEET TODAY.
HARVARD HAS LONG LIST OF FAST PERFORMERS.

Los Angeles High School Does Not Hope for Much—Amateurs Will Go After Established Records—Entry List, While Not Large, Is Considered Classy.

This afternoon on the Harvard Military Academy grounds the big county track and field meet will be held, in which various schools will participate. While the entry list is not as large as in many of the meets held this season, it is classy, containing a number of the best amateur performers of Southern California.

Seven schools are entered—Harvard, Throop, Pasadena High, Los Angeles Polytechnic, Los Angeles High, Compton High and Citrus Union. Contrary to expectation Los Angeles High will be short-handed, the fastest sprinter, the reason of Donnell's absence is explained by the fact that he expects to graduate soon and has not had time to devote to training. Harvard has a fine array of talent entered and stands a good chance of capturing a major portion of events, but surprises are promised, and the result cannot be forecasted.

The list of entries is as follows:

100-yard dash—Coover, Polytechnic; Lant, O'Key, Cline, Harvard; Scholwater, Compton; Hayes, Gibbs, Pasadena.

220-yard dash—Robertson, Coover, Polytechnic; Lane, Cline, Harvard; Flanders, Pasadena.

440-yard run—McDonald, Polytechnic; Cray, R. Lee, Harvard; Wilson, Compton; Flanders, Smith, Pasadena; Rhodes, Citrus.

880-yard run—B. Lee, Levy, Warrington, Harvard; Pike, Cooper, Smith, Pasadena; Rhodes, Citrus.

1 Mile—McKenzie, Valley, Polytechnic; K. Lee, Harvard; Scholwater, Compton; Smith, Citrus.

120-yard hurdles—Hotelling, Pasadena; Youngs, Los Angeles High.

220-yard hurdles—Cline, Tarbox, Brown, Harvard; Hayes, Gibbs, Kern, Pasadena.

Pole vault—McCready, Palmer, Polytechnic; Tarbox, Harvard; Carus, Pasadena.

Hammer throw—Wright, Harvard; Ehrenfeld, Pasadena; Thompson, Peake, Citrus.

Shot put—Freese, Ball, Harvard; Waehob, Pasadena; Walbridge, Black, Los Angeles High School.

High jump—Dugue, Freeman, Harvard; Hotelling, Pasadena; Thompson, Citrus.

Broad jump—O'Key, Harvard; Gibbs, Hayes, Hotelling, Pasadena.

5 Mile relay—Four-man team picked from the following: McDonald, Robertson, Valley, McCready, Coover, Polytechnic; Smith, Flanders, Pike, Cooper, Gibbs, Pasadena; Cline, Tarbox, Lane, Cray, K. Lee, B. Lee, O'Key, Harvard, first team; Levy, Warrington, Freeman, Smith, Brown, Harvard, second team.

AMATEUR LEAGUE FORMING.
Business Men Stand Sponsor for Scheme to Provide Good Ball While Looking Aways.

The formation of a Southern California Amateur Baseball League, which was spoken of a few days ago, appears to be assuming definite shape, and several business men have announced their willingness to stand behind the scheme and put up funds with which to supply Los Angeles with baseball during the time the League is away of their non-schedule stunts.

The teams for this league will be the Tufts-Lyon, Hamburgers, Hoegs, Place and another. Two of those behind the scheme are business men, while the third is an advertising man. The former will erect a grandstand in shape, and the latter will inclose the place, San Diego and other towns have made a bid for entrance into the league, but this will be arranged later. Each team will post a bond of \$25 to cover fines, etc.

The scheme of four teams have been playing, they have put up good ball, and have drawn large crowds.

The board of directors selected to engineer the affairs of the new league are: Tipton, Bennett, Goodman, Lawton and Chavez.

The selection will be the selection of suitable grounds, and this will be settled early next week, after which a schedule will be formed and regular play begun.

CHESS CLUB REMOVAL.
The Los Angeles Chess Club has removed its quarters from Room 128-9 to rooms 123-45 Los Angeles-Pacific building.

HAVE PITY FOR NEGRO.
Operation on His Injured Skull is Recommended for Darkey Thief.

(BY DIRECT WIRE TO THE TIMES.)
SAN FRANCISCO, May 4.—(Exclusive Dispatch.) This afternoon Judge R. F. Blodgett, C. W. Monahan and E. D. Roberts of the General Relief Committee visited Claude Guithart, the negro arrested for having in San Francisco stolen three trunks filled with stolen goods. It is understood he will be released on probation, and undergo an operation to relieve the pressure of a piece of the skull on his brain.

When he was sent to San Quentin from here two years ago it was understood by Judge Blodgett that he penitentiary, an examination of his skull having shown a large dent, which was caused by an accident some years ago. This operation, however, was performed and the committee believes his thieving propensities are caused by this old injury.

In his examination Guithart states that he stole from the Union Square store by Constable Bagley in his room in Colton. He says he managed to get away without being wounded, although several shots were fired at him by the soldiers.

In his last step several months ago he was arrested for stealing articles of no value and seemed to steal as a result of an impulse over which he had no control.

"OWL" FIRST AS USUAL.
R. E. Miller, manager of the San Francisco business of the Owl Drug Company, is in Los Angeles for the purpose of conferring with President Kirkland and securing here part of the stock with which he will, on Monday, reopen one of the company's San Francisco stores.

"We will be ready for business Monday," said Mr. Miller, "and our will be the first drug store to be reopened in the burned district. We propose to make it yellower than ever."

YEAR'S LARGEST BUY OF INSIDE PROPERTY.
REAL ESTATE RECORD.

REAL estate deals are numerous. The opening one below is for nearly a quarter of a million. Several good homes have been bought within a few days past and many buildings for prompt improvement. The last item below is one of \$40,000, resold at a nice profit. The day's report comes to about \$500,000.

The largest inside property deal of the year was consummated yesterday by the Jones & Ryder Land Company. Poole & Jones, a corporation, in the August Boehmer, one lot, \$450; Josiah Fisher, two lots, \$1500; all in Hoegge's East Hollywood Tract, near Vermont and Prospect avenues, to Kate Markey, \$1150; to A. J. Lashley, \$355; to J. W. Collins, \$885; to Mary A. Isenbart, \$550; to Emma C. Speicher, \$900; to Josiah Fisher, \$2500.

S. H. Rigby and E. J. Friedrich report the following sales in the northern hill section: Lot 100x125 feet, corner Temple and Centennial, improved with two cottages, J. Lehman to C. E. Pendell; consideration, \$7500. Lot 150x165 feet, the northeast corner Sunset boulevard and Stanislaus street, C. E. Pendell to H. L. Scherb, \$3000. Corner lot, 20x150 feet, Sunset boulevard and Echo Park road, H. L. Scherb to H. C. Jensen, \$2000. Lot 100x185 feet on Union avenue, near Temple, Mrs. M. McCullough to J. A. Burnett, \$2000. Lot 50 feet on Elysian street, Melton Land Company to C. J. Summers, \$1000. Lot 40x125 feet, improved with five-room cottage, Temple, near Pacific, Angelino Wirebaugh to C. Swick, \$1400. Lot 50x150 feet, Sunset boulevard, near Marion street, J. H. McCall to Mrs. Bertha Carlson, \$1500. Cottage, seven rooms, Bartlett, between Centennial and Beaudry, lot 40x100 feet, J. Clark to C. E. Pendell, \$1700. Two lots, L shaped, facing Temple street and Edgeware, 50 and 68 feet front, respectively, L. Winters to A. G. Hutchins, \$2500. Lot 41x125 feet, on Temple, near Union avenue T. M. C. Rigby to Daniel Schied, \$1500. Cottage, four rooms, lot 40x125 feet, Burlington, near Temple street, E. C. Hyans to E. Vanderbeck, \$1750. Lot 50x150 feet, Edgeware Road, west Victor street, Mary B. Waddell to Marie S. Pelton, \$950. Lot, Kellam avenue, between Douglas and Edgeware road, 32x150 feet, J. R. McManus to P. C. Moyers, \$1500; also adjoining lot to same buyer, \$1200. Lot 50x105 feet, Bellevue avenue, near Echo Park, P. C. Moyers, \$1500. Lot 50x100 feet, 150 feet, west side Hollywood street, between Bellevue and Ionia, Abbie B. Kersey to Henry Cogswell, \$1150. Lot 50x150 feet, Helen street, Angelino Heights, M. T. Scherrettre to Charles Fisher, \$950. A fifty-foot lot, Temple, Victor street, J. A. Simms to Henry Gilbert, \$2000. Lot 41x125 feet, north side Sunset boulevard, near Echo Park road, J. S. Maitland to S. E. Winslow and others, \$1600.

Increasing demand for property in the northwestern hill section continues, and slightly locations for homes are much sought after, several elegant houses being in course of erection.

CASPER BEANS DEADLY.
Ocean Park Woman is Stricken With Dangerous Illness After Eating Them.

(SPECIAL CORRESPONDENCE OF THE TIMES.)
OCEAN PARK, May 4.—Mrs. L. Springer of Ashland avenue is seriously ill through having eaten three casper beans fresh from the tree. A neighbor who had read somewhere, or had been told, that such beans were a panacea for certain kinds of illness, communicated her information to Mrs. Snyder. The woman who made the exclamation "I will eat them" is well along in years. Immediately following the swallowing of the beans she was taken dangerously ill.

Physicians responded promptly to the call and her life was saved. The official warning has since been given not to touch, taste or handle the casper beans that adorn the ornamental trees growing along the wayside. The oil contained in these beans is a powerful cathartic and they contain also a large percentage of resin, which is one of the most violent of intestinal irritants.

A SURRENDERED CHAMPIONSHIP.

BITS OF VERSE.

Song of the Mother Range.
 Do you know how I have waited
 Through rain and sun and blast
 For your coming, O my children,
 While the countless aeons passed?
 I should travel but abide
 To become the mighty mother
 Of races in their pride.
 And the fruit of all my longing
 Comes to me at last.

The desert wind might mar me,
 The sudden flood might change me,
 And time make all my beauty
 Faint and strange.
 But now from many seas,
 With their large, triumphant
 Sails, you come to me.

For my cry goes far to find them;
 The echo of my call
 Crosses the prairie, rivers and pierces
 Door and wall.
 Till the dwellers of the street
 Feel the slackened pulses beat—
 Till a long, low, low, low, low,
 And the old way, the tried way,
 Is naught to them at all.

Their hearts have heard the trail-call,
 The word that bids them awake
 From the tyranny of cities; the bonds
 Of custom break.
 And they are slaves no more
 To chair and desk and store,
 With a hunger for the open and
 A wander-thirst to slake.

Are they worldly, are they weary,
 Are they broken, are they worn?
 Are they sick with money-fever,
 Illusioned and forlorn?
 They shall walk beneath my skies
 In rapture of surprise.
 The long-forgotten love-light
 Rekindled in their eyes;
 And every beating heart in them
 Shall glad that it was born.

Through my thousand purple cañons,
 Where the giant shadows ride,
 From the rim of the arroyo,
 From the wash to the divide,
 There is healing, there is love,
 There is health for sorrow's
 Where strength is born of gladness
 And the winds are soft and pure.
 LA, your welcome is made ready
 And my blue robe is wide and true.
 (Bliss Carmen in The Reader.)

Sweet Charity.
 There are dark days when suspicion
 Haunts the ways of human kind;
 Overweighs the word that's kind;
 When the fires of trust are smothered.
 And you choose the cynic's view—
 But Charity, sweet Charity,
 Shall make Faith live anew!

Men play their games of living,
 And they pay no heed to odds;
 They forget the rules of fairness,
 And they reach not of the gods;
 But let some cry of anguish,
 Rattle out, 'neath heaven's blue,
 And Charity, sweet Charity,
 Shall make Faith live anew!

So rest content, O brothers,
 And keep your vision clear;
 Nor greed nor strife shall wreck us
 While this dear maid bides near;
 Distrust can be but fleeting
 When men prove brothers true—
 Ah, Charity, sweet Charity,
 Thou mak'st Faith live anew!

A Castle in the Air.
 Featherly-futter and flidgy-wing,
 Twitter and flitter and warble-sing,
 Were five little birds who lived, one
 spring.
 In a castle in the air,
 Each was as happy as queen or king,
 Without a care above anything.
 When the mother bird a word would
 bring,
 Each birdling had a share.

If a bee came by with a flip and a
 fling,
 They welcomed him gaily, nor feared
 that he was anything.
 And they cheerily chirped as he sat
 in a ring.
 While the bee flew here and
 there.

When their little air castle would
 sway and swing,
 They clung together the birds would
 cling.
 And merrily chirrup a ting-a-ling-
 ling.
 For the gladness everywhere,
 (Edwina Robbins in St. Nicholas.)

IN THE BIG INDUSTRIES.

Canada and Niagara Power.

Canada is in the position of advantage as regards the amount of electrical power capable of development on her side of Niagara, and several of the plants on the Canadian side are devoted for the supply of power in United States territory. However, a strong agitation is springing up in the province of Ontario against the power developed in Canada being sent out to the United States for the benefit of foreign industries. The demand in Canada for public control of the falls is not prompted by a desire to preserve their scenic grandeur, but to prevent private corporations from thus exporting the power.

A recent deputation to the Premier of Ontario pointed out that a large number of towns and cities in the province would be enormously benefited by cheap electric power. It was declared that for an expenditure of \$15,000,000 the province of Ontario could get a site establish a plant and distribute power to all municipalities within a reasonable radius for an average of 20 per cent. per horse power.

The water power of Niagara Falls in the hands of the municipalities would make Ontario one of the great manufacturing centers of the world; and that the power should be exported for the benefit of the whole people and not for the long run on the Canadian side, operating mainly outside Canada.

The full force of this argument can only be appreciated when we remember that the province pays from \$17,000,000 to \$25,000,000 annually to American coal companies for such a sum, can be saved to the people. It is likely that there will be municipal cooperation, and that the power will be sold to the municipalities.

Shaft-Sinking Through Rock.
 A new circular cutter that sinks a shaft through solid rock by removing solid columns of stone has been brought into use in Belgium. The machine is three feet in diameter, and is a hollow cylinder of steel, at the base of which is mounted the circular knife. The peculiarity of the knife is that it has two rows of teeth—alternate teeth upon concentric circumferences. This arrangement permits the knife to attack the stone better, but widens the groove in which the cylinder rotates. To assist the cutting, fine streams of compressed air and some water are poured into the groove. Electricity is the motive power used. After the core is cut, it is broken off into pieces by driven wedges into the groove. The column thus comes away in cylindrical sections, and the hole is enlarged by chine cuts to a depth of about twelve feet, but by superimposing other cylinders above the first one shafts have been sunk to a depth of thirty feet.

World's Largest Ships.
 The new Cunard liners, the Mauritania and the Lusitania, which are to be launched next June, will be the largest ships the world has ever seen. Each vessel will have a gross tonnage of 32,300, while they are sixty feet longer than any other liner yet constructed. They are 81 feet in beam, and in this respect are the first to surpass the Great Eastern, which was 80 feet in beam. Each vessel will have accommodation for 3000 passengers, and carry a crew of 800. They will be propelled by turbine engines capable of developing 30,000-horse power, and are expected to travel at a speed of twenty-four knots an hour. Marine engineers predict that these enormous ships will be the standard of the world.

Luxurious Internal Fittings.
 The new Canadian liner, the Lusitania, will be fitted in a manner equal to the most sumptuous modern hotels. A system of lifts between the various decks will provide for the rapid transit of the passengers from one part of the ship to another.

San Francisco has proven the value of Safe Deposit Vaults. We have in our basement the finest in the city. Prices reasonable.

 20 and Spring Sts.
 Paid-Up Capital One Million Dollars

San Francisco has proven the value of Safe Deposit Vaults. We have in our basement the finest in the city. Prices reasonable.

other. The first-class dining saloon will be unprecedented in marine architecture. It will be lighted by a great dome extending up through the two decks above, and covered with a roof of stained glass. It will be capable of seating 500 persons at one time. The wall decorations will consist of reproductions of the world's great masterpieces of painting. It goes without saying that telephones, wireless telegraphy and the daily morning newspaper will be included in the equipment of these latest products of the shipbuilders' art.

Hearst—That's All.

(From the Chicago Chronicle of April 23.)

Although the Hearst earthquake and the Hearst fire which followed the seismic upheaval in Hearst's city of San Francisco constitute the greatest catastrophe in America's history of disasters, Hearst has been equal to every task. He has not only survived, but he has emerged as a conqueror. Hearst's Congress met in Washington and appropriated \$2,500,000 of Hearst's money. Hearst's city of Chicago and the Hearst fire which followed the seismic upheaval in Hearst's city of San Francisco constitute the greatest catastrophe in America's history of disasters, Hearst has been equal to every task. He has not only survived, but he has emerged as a conqueror. Hearst's Congress met in Washington and appropriated \$2,500,000 of Hearst's money. Hearst's city of Chicago and the Hearst fire which followed the seismic upheaval in Hearst's city of San Francisco constitute the greatest catastrophe in America's history of disasters, Hearst has been equal to every task.
